Flying will be from 9:30 until 1:30pm, while others may attend, the Ulster youth shall be flow first. Need for a barrier to be used as in the path to keep the ramp clear. Mike mentioned

That they will be providing pizza. Mike asked for volunteers.

New Business:

Ed Martin mentioned a possible fly out to Wise airport, date to be determined.

July 24th Virginia Highlands Car and Airshow.

Program:

Meeting ended at 1:55pm, Hangar talk and deserts.

A Message from the Editor

Hi Everyone,

If you are working on a project, doing repairs take a picture, and send me a short blurb about it. A lot of you take short trips out and about to small airstrips, to lunch stops, and airplane museums. We would like to hear about it and share your story. Also if you hear of an event that is not listed in the newsletter or our web site, please email me with the information. This is “**your**” chapter newsletter, and thanks to those who have sent me material. As you read the articles in this newsletter you can appreciate the articles by fellow members. It sure makes reading the newsletter a better experience for us all.

This Newsletter includes the following Articles:

Email stories and links.

Pictures from the Young Eagles Day on June 12th

From EAA,
BALDWIN TO RECEIVE EAA'S TONY BINGELIS AWARD

EAA AVIATION CENTER, OSHKOSH, Wis. – James Baldwin of Pickerington, Ohio, will receive the Experimental Aircraft Association's 2010 Tony Bingelis Award recognizing contributions to EAA and the aviation community. Baldwin (EAA #110713) has tirelessly dedicated more than 60 years to the aviation community, encouraging builders and their projects as well as promoting aviation safety. As a frequent contributor to EAA Chapter 443's monthly

newsletter, Baldwin has reported on his EAA Technical Counselor visits and has made himself available at each chapter meeting for an open forum of dialogue. Since becoming an EAA Technical Counselor in 1993, Baldwin has conducted sheet metal construction workshops at the Mideast Regional Fly-In, been a flight line safety volunteer at AirVenture, and has advised many builders in Ohio on construction, design, and weight and balance.

A retired Aeronautical Engineer for North America Rockwell, Baldwin has performed several weight and balance programs over the years and has been a major participant in the EAA Young Eagles, providing 332 youths with their first flight and helping send 18 youths to the Air Academy.

Baldwin, who received his private pilot certificate the day before he reported to the U.S. Air Force in 1948, built the second RV6 kit to ever fly in 1989 then built an RV10 in 2007. Additionally, Baldwin has owned and maintained several aircraft, including a BC12D Taylorcraft, Cessna 140, Cessna 120 and Cessna 170, and has invested time in rebuilding and maintaining aircraft (most notably a Mitchell B25 and Douglas B26) of The Historical Aircraft Squadron in Lancaster, Ohio.

The Bingelis Award will be given to Baldwin during the EAA AirVenture Homebuilder's Dinner on Thursday, July 29, during the annual EAA AirVenture fly-in at Oshkosh, Wis. Tickets for the dinner will be available at Homebuilder's Headquarters on the EAA grounds.

The Tony Bingelis Award was created in 2002 to recognize a member from the aviation community who has contributed to homebuilt projects and safety promotion while maintaining EAA values. The award honors the late Tony Bingelis, who was noted as a homebuilding authority and EAA Sport Aviation columnist.

EAA embodies the spirit of aviation through the world's most engaged community of aviation enthusiasts. EAA's 160,000 members and 1,000 local chapters enjoy the fun and camaraderie of sharing their passion for flying, building and restoring recreational aircraft. For more information on EAA and its programs, call 800-JOIN-EAA (800-564-6322) or go to www.eaa.org. For continual news updates, connect with <http://twitter.com/EAAupdate>

EAA AVIATION CENTER, OSHKOSH, Wis. — Inspirational women aviators will mentor and engage teenage girls about aviation careers as part of EAA's sixth annual Women Soar You Soar event, being held July 25-27 at the EAA Aviation Center in Oshkosh.

Among the approximately 40 mentors scheduled to appear are Lt. Col. Jill "Raggz" Long, a U.S. Air Force pilot and an aerobatic performer; Bonnie Tiburzi Caputo, the first woman to fly for a major airline; Jessica Cox, who was born without arms but became the first pilot certificated by the Federal Aviation Administration to fly with her feet only; Amanda Wright Lane, the great grandniece of first flight pioneers Orville and Wilbur Wright and a trustee of Wright "B" Flyer Inc.; and members of the WWII Women Air Force Service Pilots (WASP), who received the Congressional Gold Medal in March 2010.

This year, Women Soar You Soar will host 100 girls in a variety of activities, including flight simulation, workshops, wing rib assembly, and mentor sessions.

"Mentors will share their success stories and offer advice on how to set goals in order to fulfill their aviation dreams through this EAA pathway to participation," said Elissa Lines, EAA vice president of business and donor relations.

"These young women will undoubtedly come away inspired about the opportunity they have before them in pursuing an aviation career."

Applications will be accepted through June 30, 2010, and are available online at www.airventure.org/WomenSoar.

The cost is \$50, which includes lodging at the University of Wisconsin-Oshkosh, meals and admission to EAA AirVenture Oshkosh, "The World's Greatest Aviation Celebration."

Space in the program is limited. Additional information can be obtained online, by e-mail at womensoar@eaa.org, by calling the EAA Development Office at 800-236-1025. Need-based financial aid is also available to cover registration fees, subject to certain requirements.

EAA embodies the spirit of aviation through the world's most engaged community of aviation enthusiasts. EAA's 160,000 members and 1,000 local chapters enjoy the fun and camaraderie of sharing their passion for flying, building and restoring recreational aircraft. Young Eagles day at RVN June 12th 2010

For those of us who attended the event, the weather was quite iffy. First flights were limited to an extended pattern, but as the day went on, the visibility improved enough to fly our normal route. We flew 19 Young Eagles, and everyone had a great time. Hamburgers and hotdogs were available. It was also nice to see Vince Nicely's wife helping with the registration as she had in the past. Bruce Campbell the coordinator thanks all who helped make this a fun, safe event.

Young eagles soar at airport

SPECIAL TO THE REVIEW

The Come-Fly-With-Us Young Eagles program conducted by the EAA442 chapter that flies out of the Hawkins County airport in Surgoinsville

was a great success.

The young eagles day was Saturday June 12th from 10 am to 2pm in conjunction with EAA's national YE day. Though they got a late start due to the haze, the sky cleared enough to allow the four pilots to take 19 young eagles up for a ride and give them an opportunity to fly.

If interested in future opportunities to have your children between the

ages of 8 and 17 to fly as young eagles and experience the thrill, please contact Bruce Campbell at 423-272-9682. Information about this wonderful opportunity for young people to become familiar with hands on flying can also be located at www.young-eagles.org or the local chapter eaa442.com.

Contributed Photos
