Mike flew his project RV6 and had a fuel leak and an airspeed indicator problem.

## **Old Business:**

None

## **New Business:**

None

**Program:**

Lot's of good hangar talk.

**A Message from the Editor**

Hi **Everyone**,

If you are working on a project, doing repairs take a picture, and send me a short blurb about it. A lot of you take short trips out and about to small airstrips, to lunch stops, and airplane museums. We would like to hear about it and share your story. Also if you hear of an event that is not listed in the newsletter or our web site, please email me with the information. This is **“your”** chapter newsletter, and thanks to those who have sent me material. As you read the articles in this newsletter you can appreciate the articles by fellow members. It sure makes reading the newsletter a better experience for us all.

**This Newsletter includes the following Articles:**

Email stories and links.

**Calendar of Events**

**EAA 442 Chapter meetings the next meeting Saturday September 24th 2011 at 12:30pm,**

**Lunch available at 12pm, RVN.**

**Fly in or drive in, be there or be -----.**

**Members are encouraged to bring a desert and a friend.**

## **From Email's**

Ed Neumann, EAA216  
Greetings Group ,

Have you thought about maybe coming to join us down here in Virginia Beach in a few weeks for our World War One airshow. We would be delighted to entertain you and even more to have you bring an airplane along with you to fly.

This fall, on the second weekend of October, we will again be hosting our annual fly in dedicated exclusively to World War One era aircraft. Attached is a brochure to describe the weekend events, which has been distributed throughout the East Coast, and heavily advertised in the local area. The event will be a few weeks after the same style weekend event as the biannual *Dawn Patrol Rendezvous* airshow.

We welcome you to join us and bring along an airplane to this exciting display of flying aircraft from the time of The Great War. We would invite owners of any and all similar airplanes, airworthy or not, reduced scale or full size, and even uncompleted static projects, to share their work with thousands of enthusiastic spectators. If you are also able to perform demonstration flights in a military replica aircraft of the First World War, we will then provide flight fuel, meals, and dual night accommodations at the oceanside Cavalier On the Hill hotel ([www.CavalierHotel.com/History](http://www.CavalierHotel.com/History)), built just a few short years after the Armistice. In addition, we are also hosting our annual World War Two airshow ([www.militaryaviationmuseum.org/airshows/warbirds-over-the-beach-show-may-2011](http://www.militaryaviationmuseum.org/airshows/warbirds-over-the-beach-show-may-2011)) on the weekend of May 18-20, 2012.

We hope to see you at the beach and join us for either or both of these exciting events. For more information about the October extravaganza, give me a call or send me a short email and will facilitate your arrangements.

Happy flying,

Jerry Yagen

### **FAA Safety Team | Safer Skies Through Education**

Special Notice - Shanksville, PA, New York City, NY, and Washington, D.C.  
Notice Number: NOTC3189

In observance of the 10th anniversary of the terrorist attacks of September 11, 2001, numerous local, state, and federal entities will hold memorial

services and other events during the September 9-12, 2011 period. Some of these events will have corresponding air space restrictions.

Pilots should exercise caution and frequently check NOTAMS.

Pilots operating in the vicinity of Shanksville, PA, New York City, NY, and Washington, D.C. should especially be alert for changing airspace restrictions.

Bob Cording

Thought you might like to have this link to the virtual aircraft museum. It allegedly contains information and photos of every aircraft ever produced.

<http://www.aviastar.org/index2.html>

In this list, I found a plane I had worked on in the Navy. I don't mean the same model, I mean the actual plane. The "B" on the tail and the No. 139 was from the series we had. Our base had 13 of these beasts and if we had 7 flyable, that was over 50% availability, which was considered good. They were a maintenance nightmare. We only lost one pilot, though.

See [http://www.aviastar.org/air/usa/martin\\_mauler.php](http://www.aviastar.org/air/usa/martin_mauler.php)

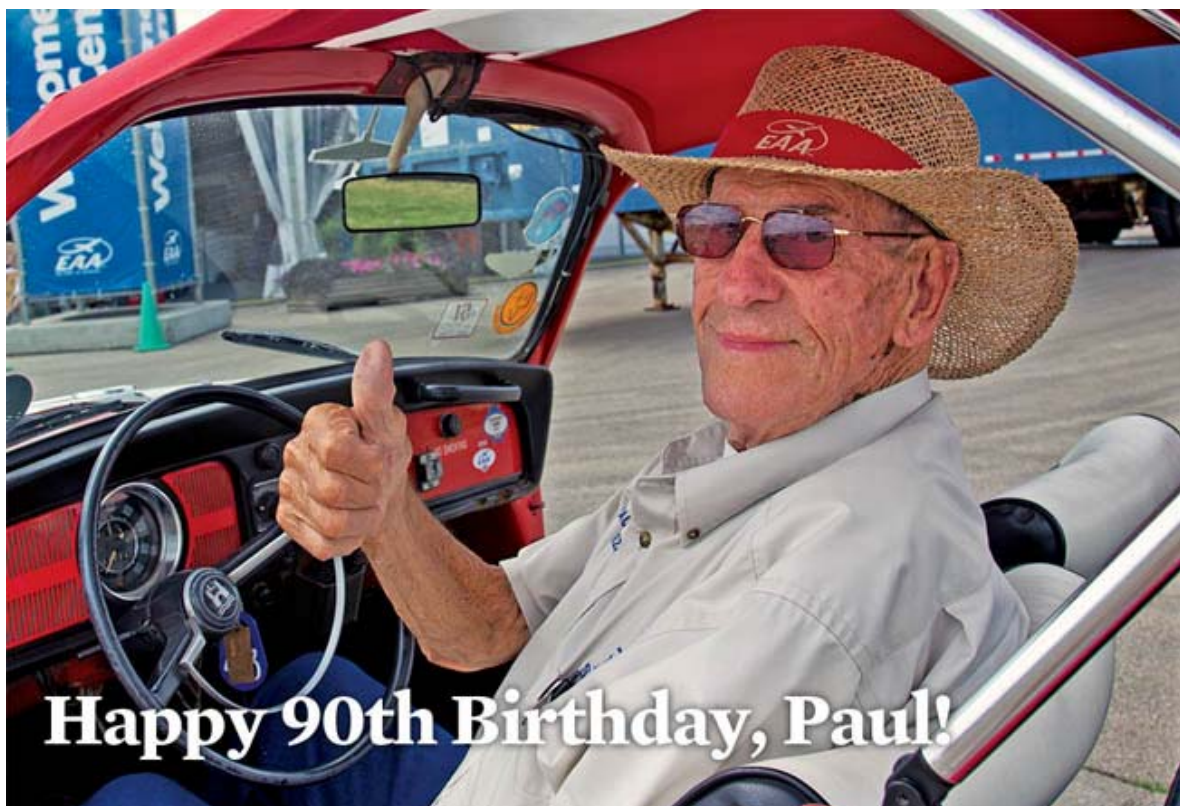

Bob

Bruce Campbell

Boeing Museum

A terrific museum!
