A Message from the Editor

Hi **Everyone**,

If you are working on a project, doing repairs take a picture, and send me a short blurb about it. A lot of you take short trips out and about to small airstrips, to lunch stops, and airplane museums. We would like to hear about it and share your story. Also if you hear of an event that is not listed in the newsletter or our web site, please email me with the information. This is “**your**” chapter newsletter, and thanks to those who have sent me material. As you read the articles in this newsletter you can appreciate the articles by fellow members. It sure makes reading the newsletter a better experience for us all.

This Newsletter includes the following Articles:

Changes to Aircraft Wake Turbulence Separation Categories

Notice Number: NOTC4340

Memphis International Airport (MEM)

Changes To Aircraft Wake Turbulence Separation Categories

At 0600 CDT (1100Z), on November 1, 2012, MEM will implement a recategorization (RECAT) of wake turbulence separation categories. RECAT places aircraft into six (6) categories (labeled A-F) for both departure and arrival separation.

As a result of RECAT, some pilots may see a reduction or an increase in wake turbulence separation distances but most will not notice any changes at all. Air Traffic Control (ATC) controller phraseology will not change.

The Automated Terminal Information Service (ATIS) will include a statement that RECAT wake turbulence standards are in effect.

Additional information can be found in the FAA Safety Alert For Operators (SAFO) #12007, dated October 18, 2012 A copy of the SAFO can be found by clicking on this link (or by copying and pasting the link in your browser):
